Landowner Cost

In 2027, the cost to the landowner is \$0.80/seedling, this includes stock and planting. The landowner is responsible for site preparation and long-term maintenance. LPRCA staff can provide advice for both.

In the event that the seedling stock is unavailable or the Planting Delivery Agency (PDA) is unable to deliver the Program, the planting will be cancelled and the Owner will receive a full refund of the funds paid by the Owner to the PDA. LPRCA does not guarantee survival after planting.
